LEADERSHIP & PROFESSIONAL EXPERIENCE

Lugaish — Language Learning Platform for Students | Founder & CEO, Lead Full-Stack Developer Mid 2026 – Present

Live Platform: lugaish.vercel.app • Repository: github.com/tanvir560298/Lugaish-client

- Founded, architected, and deployed a full-stack language learning web platform designed specifically for students mastering Arabic and English.
- Implemented structured 60-day curriculum modules with 12-class monthly subscription tiers, automated access gating, and lifetime retention of completed batches.
- Built an integrated audio masterclass player with Cambridge test practice and an administrative dashboard for one-click student tier management.

YouTube Web Development Educator (Bangla) | Instructor & Content Creator

2026 – Present

Playlist: [HTML Full Course in Bangla](#) | [Web Development for Beginners](#)

- Authored and published an intensive 7-class structured HTML video curriculum in Bangla on YouTube.
- Taught semantic layout, SEO hierarchy, media, forms, containers, and live portfolio creation to Bengali-speaking learners worldwide.

Lugaish | English Language Instructor

Mid 2026 – Present

- Design and teach communicative, outcome-driven English lessons focusing on spoken fluency, grammar fundamentals, and interview preparation.
- Provide structured feedback and personalized mentoring to accelerate students' confidence and language proficiency.

Interact District 3281 Bangladesh (Rotary International) | District Secretary

2023 – 2024

- Directed administrative operations, district communications, and youth leadership initiatives representing **over 2,000+ students** across Bangladesh.
- Organized district-wide youth summits, social impact programs, and inter-school community development projects.
- Demonstrated exceptional diplomacy, public speaking, negotiation, and cross-functional team coordination skills.

FEATURED FULL-STACK PROJECTS

StudyMate — Collaborative Study Partner Platform | Full-Stack MERN Developer

May 2026

Live Demo: studymate-client-two.vercel.app • GitHub: github.com/tanvir560298/studymate-client

- Developed a collaborative study partner matching platform with Firebase Authentication, subject filtering, and experience-level sorting.
- Implemented full CRUD connection management, dynamic request flows, and responsive dark/light mode UI with React, Tailwind CSS, DaisyUI, and MongoDB.

MongoDB

Express.js

React

Node.js

Firebase Auth

Tailwind CSS

DaisyUI

Live Demo: [bookcourier-client-neon.vercel.app](#) • GitHub: [github.com/tanvir560298/bookcourier-client](#)

- Engineered a comprehensive library management and book ordering platform with 3-tier Role-Based Access Control (Reader, Librarian, Admin).
- Implemented catalogue search, book ordering, delivery tracking, order cancellation, and administrative controls with JWT-protected Express routes.

MongoDB Express.js React Node.js JWT Auth Firebase Tailwind CSS
